handmark

vika fifita —
marks and memories

I describe my painting style as Neo Expressive Pop, and is a reflection of my everyday life, documenting memory, motherhood, and personal transformation. The title of the show *Memories and Marks* speaks to the essence of my paintings — moments captured through marks that reveal the fleeting and lasting impressions of our experiences.

Through vibrant colour and expressive detail, I explore the act of remembering and the beauty of change. Each piece invites you to look deeper, uncovering the layers that tell a story of a past moment, a present feeling and self evolution.
